UK Wide Workplace Recovery Specification

BS 25999 Part 2 certified – Resilient business operations across every Workplace Recovery centre.

Single Resilient National Security System – Ideal for nationwide recovery needs, one system for easy, rapid admin:

- **Government agency intelligence feeds** – Every location aware of latest national and local threats
- **Manned security** – Counter surveillance, first aid and conflict management trained staff
- **Smart automated CCTV** – Perimeter and internal: automated detection and alerts with keyboard and monitor zoom. Compliant with Home Office and police evidentiary recording standard
- **Physical access controls** – Preventing opportunistic intrusion
- **Centralised control and administration** – Rapid and easy customer configuration and tailoring.

Standardised, premier, enterprise level recovery infrastructure – Rapid, reliable, easier recovery and rollback:

- **PC build** – Reduces recovery complexity.
- **Telephony** – Inbound and outbound calls, RTO from 10 mins:
 - **Centralised switch** – Recovery from any location
 - **Local switch** – Permits greater control and tailoring of service
 - **Local switch control** – Enables greater security and tailoring for customers
 - **TDM and IPT telephony systems** – Recover both types for your usual functionality
 - **Free seating/Automated Call Distribution** – Sit anywhere, secure call distribution even for multiple shift workers.

ELLAND WORKPLACE RECOVERY CENTRE

Recovery Connectivity

SunGard National Network – Dedicated recovery network linking all sites and data centres.

- **Dual Diverse 1Gb MPLS network** – Greater resilience, two separate links, ducts, switches and providers
- **Standardised LAN 10/100 Mb to the desk** – Standard offering suitable for most office environments
- **Optional LAN Enhancement 1Gb to the desk** – Enhanced performance for bandwidth hungry applications
- **Rollback** – Mitigates wide area events – recover to the next available centre.
